2.	Comment. The shipment of units of the 2d Light Arty Brig to Neustrelitz on three trains was repeatedly reported. The units of	25 <b>X</b> 1
	the brigade, along with units of the 9th Gds Tank Div, probably moved from Neustrelitz to the Wittstock area for joint winter maneuvers. from	
	where they returned to Doeberitz on 15 February	25X1
	The AT units reported detrained on 15 February therefore most probably belonged to the above mentioned brigade.	
2.	Comment. No other information is available on this shipment.  On 15 February, two trains went from Bernau to Doeberitz, presumably carrying units of the 6th Gds Mecz Div and/or the unidentified army AT artillery brigade of the Fourth Gds Mecz Army. These units possibly were to participate in the field exercises in the area west of Berlin. It is not impossible that the train which arrived from Fernau carried units of the above mentioned brigade.	25X1
j o	Comment. The bulk of the units of the 1st Mecz Div carried in the installation, i.e., the 19th Mecz Regt, the 219th Tank Regt, and the 72d Gds Hv Tank SP Regt, probably left for winter maneuvers	25X1
	which were held in the area west of Berlin, a motor vehicle column with artillery pieces on Highway No 103 in the area west of Ballgow	25 <b>X</b> 1
